**ORDINANCE AMENDING ORDINANCE NO. 06-014 FOR THE PRESERVATION AND
PROTECTION
OF TREES IN THE VILLAGE OF HOMER GLEN**

WHEREAS, the Village Board recognizes that trees are unique, intrinsically significant and valuable assets in and to the Village of Homer Glen;

WHEREAS, the Village has determined that trees are unique, intrinsically significant and valuable assets. Due to their size, species, historic association and ecology, they contribute significantly to the health and general welfare of the citizens of a community;

WHEREAS, while allowing for reasonable improvement of land within the Village, it is the policy of the Village to enhance the tree population and to maintain and protect, to the greatest extent feasible, existing trees within the Village;

WHEREAS, the planting of additional trees and the preservation of existing trees in the Village provides the following benefits to the Village and its citizens:

- A. Trees enhance the unique physical, historical and aesthetic character of the Village.
- B. Trees aid in controlling storm water runoff, stabilizing soil by preventing erosion and sedimentation and replenishing ground water supplies.
- C. Trees enhance air quality by removing carbon dioxide, generating oxygen and filtering air pollutants.
- D. Trees reduce noise through buffering and screening.
- E. Trees reduce energy consumption by providing shade and a windbreak effect.
- F. Trees enhance the habitat and food source for birds and other wildlife, which in turn control insect populations and maintain the balance of natural ecosystems.
- G. Trees enhance property values and create a desirable residential and commercial environment.

WHEREAS, the Village Board recognizes that a certain amount of trees will be lost as an inevitable consequence of development within the Village;

WHEREAS, the Village Board has determined it to be in the best interest of the Village to protect and enhance the existing tree population to the greatest extent feasible and to replace trees which are lost due to development activities;

WHEREAS, the Village Board has determined that the adoption and implementation of a tree preservation ordinance will recognize and allow a property owner to develop his or her property in a reasonable manner while protecting the various benefits to the community which are provided through the protection and maintenance of trees within the Village, including, but not limited to the prevention of soil erosion and sedimentation, improved air quality, reduced noise pollution, energy conservation through natural insulation and shading, enhanced property values, and the preservation and maintenance of the unique physical, historical and aesthetic character of the Village.

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND VILLAGE BOARD OF TRUSTEES OF THE VILLAGE OF HOMER GLEN, WILL COUNTY, ILLINOIS, THAT:

Section 1- Recitals – The foregoing recitals are hereby incorporated into this Ordinance No. 10-007 as if fully set forth herein.

Section 2– Section 6.3 b. of Ordinance 06-014 is hereby amended to read as follows:

No more than ten percent (10%) of the trees to be planted may be from any one plant family unless recommended by the Village's Forester. Trees shall be selected from the "Approved Native Tree List" *attached hereto as Appendix A2a* and "Approved Native Shrub List" attached hereto as Appendix A2b or the "Approved Non-Native Tree/Shrub List" attached hereto as Appendix A-3; "Approved Evergreen, Ornamental and Small Trees" attached hereto as Appendix A-4. Trees which are proposed to be located adjacent to or under utility lines shall be selected from the "Recommended Trees for Planting under Utility Lines List" attached hereto as Appendix A-5. Trees which are proposed to be located in right-of-way areas or within twenty (20) feet of a right-of-way shall be selected from the "Recommended Street Tree List" attached hereto as Appendix A-6. The Village Forester shall have the authority to permit the planting of trees or shrubs other than those set forth in Appendices A-2 through A-6. *Additionally, Appendix B1 and B2 contain a list of "Trees Not Recommended for Planting" and "Noxious Plant Material List" respectively.*

Section 3– Section 9.1 of Ordinance 06-014 is hereby amended to read as follows:

Prior to removal of any trees and prior to issuance of a grading permit, or prior to commencement of any grading operations if no grading permit is required, or prior to issuance of a building permit if no grading operations are required, all sites shall be staked and fenced for tree preservation pursuant to the approved tree preservation plan. A copy of the approved tree preservation plan shall be submitted with an application for a grading permit, or with an application for a building permit if no grading permit is required. The tree preservation plan shall also indicate any reforestation trees to be planted on the site. Upon staking of the site and installation of the tree protection fencing, but prior to issuance of any permits or commencement of any grading operations, the owner or applicant shall contact the Village Forester to schedule an inspection of the staking and fence installation on the site. No construction activity, movement, parking, and/or placement of vehicles, equipment or material or spoil storage shall be permitted within the area for tree preservation. No excavation or other activity shall occur within

the area encompassed by the drip line or critical root zone, whichever is greater, of any tree that is to be preserved. No excess soil, additional fill, liquids, or construction debris shall be placed within the area encompassed by the drip line or critical root zone, whichever is greater, of any tree that is to be preserved. No permits shall be issued, nor shall any grading operations commence, without first receiving authorization by the Village Forester. Tree protection fencing shall be installed prior to commencement of clearing or excavation activities and shall remain in place until after the certificate of occupancy is issued for the building on the site. Tree protection fencing shall be installed and maintained in accordance with the "Tree Protection Detail" attached hereto as Appendix C. In addition to the tree protection fencing, a protective sedimentation fence shall be installed at the drip line of all Significant Trees or Protected Trees which are located down grade of any clearing, excavation and/or construction activity. The protective sedimentation fencing shall be installed and maintained in accordance with the "Protective Sedimentation Fence Detail" attached hereto as Appendix D-1 and Appendix D-2.

Section 4 –Appendices of Ordinance 06-014 are hereby amended to read as follows: (See Appendices A-D)

Section 5- Severability - The various portions of this Ordinance are hereby expressly declared to be severable, and the invalidity of any such portion of this Ordinance shall not affect the validity of any other portions of this Ordinance, which shall be enforced to the fullest extent possible.

Section 6- Repealer - All ordinances or portions of ordinances previously passed or adopted by the Village of Homer Glen that conflict with or are inconsistent with the provisions of this Ordinance are hereby repealed.

Section 7- Effective Date - This Ordinance shall be in full force and effect from and after its passage and approval.

Adopted this 9th day of March pursuant to a roll call vote as follows:

Approved Evergreen, Ornamental and Small Trees

EVERGREEN TREES (MINIMUM SIZE AT INSTALLATION – 8 FEET IN HEIGHT)

Common Name	Botanical Name	Cultivar
Doglasfir	Pseudotsuga Menziensii	
Pine, Austrian	Pinas nigra	
Pine, Eastern White	Pinas strobus	
Pine, Japanese White	Pinas parviflora	
Pine, Scotch	Pinas sylvestris	
Spruce, Colorado	Picea pungens	
Spruce, Norway	Picea abies	
Spruce, Serbian	Picea omorika	
Spruce, White	Picea glauca	

ORNAMENTAL/SMALL TREES (MINIMUM SIZE AT INSTALLATION – 3 INCH CALIPER/8 FEET IN HEIGHT)

Common Name	Botanical Name	Cultivar
Alder, European Black	Alnus glutinosa	
Birch, White	Betula platyphylla	"Whitespire"
Buckeye, Red	Aesculus pavia	
Corktree, American	Phellodendron amurense	
Crabapple, Flowering	Malus spp.	
Dogwood, Kousa	Cornus kousa	
Common Name	Botanical Name	Cultivar
Fringetree, White	Chionanthus virginicus	

Common Name	Botanical Name	Cultivar
Hawthorn, Cockspur	Crataegus crusgalli var. Inermis	
Magnolia, Saucer	Magnolia x soulangiana	
Magnoliae, Star	Magnolia stellata	
Maple, Amur	Acer ginnala	
Maple, Hedge	Acer campestre	"Marimo"
Maple, Miyabi	Acer miyabe	
Maple, Tartarian	Acer tataricum	
Pagoda Tree, Japanese	Shophora japonica	"Regent"
Serviceberry	Amalanchier	
Serviceberry, Apple	Amelanchier x grandiflora	
Serviceberry, Downy	Amelanchier arborea	
Serviceberry, Saskatoon	Amelanchier alnifolia	
Tree Liliac, Japanese	Syringa reticulata	

Village of Homer Glen

Recommended Trees for Planting Under Utility Lines

Botanical Name	Common Name
Acer campestre	Hedge Maple
Acer ginnala	Amur maple
Acer tataricum	Tartarian Maple
Acer rugosa	Speckled Alter
Amelanchier x grandiflora	Apple Serviceberry
Amelanchier laevis	Alleghany Serviceberry
Asimina triloba	Pawpaw
Carpinus caroliniana	American Hornbeam
Cercis canadensis	Eastern Redbud
Cornus mas	Cornelian Cherry Dogwood
Crataegus crus – galli var. inermis	Thornless Cokspur Hawthorn
Crataegus phaenopyrum	Washington Hawthorn
Crataegus viridis 'Winter King'	Winter King Hawthorn
Magnolia x loebneri 'Merrill'	Merill Magnolia
Malus (species and cultivars)	Flowering Crabapples
'Adams'	
'Beverly'	
'Bob White'	
'Donald Wyman'	
'Mary Potter'	
'Profusion'	
'Red Jade'	
'Red Jewel'	
'Selkirk'	
'Sentinel'	
'Snowdrift'	
Zumi var. calocarpa	Redbud Flowering Crabapple
Ostrya virginiana	Hophornbeam
Prunus Americana	American Plub
Prunus virginiana	Schubert Choke Cherry
Syringa pekinensis	Peking Lilac
Syringa reticulata	Japanese Tree Lilac

Trees Not Recommended for Planting

Common Name	Problem
Birch, European White	Borers
Birch, Grey	Borers
Birch, Paper	Borers
Buckthorn	Extremely aggressive
Butternut	Canker disease
Cherry, Black	Borers, black knot disease
Cherry, Choke	Black knot disease
Cherry, European Bird	Borers, black knot disease
Cherry, Pin	Borers
Cherry, Sweet	Borers
Chestnut, American	Chestnut blight disease
Elm, American	Dutch elm disease
Elm, Red	Dutch elm disease
Elm, Rock	Dutch elm disease
Elm, Siberian	Brittle wood, elm leaf beetle
Locust, Black	Borers
Maple, Boxelder	Brittle wood, boxelder bugs
Mountainash, American	Borers, fire blight disease
Mountainash, European	Borers, fire blight disease
Mulberry, White	Fruit
Paulownia, Royal	Extremely aggressive
Pine, Scotch	Pine wilt disease
Poplar, Cottonwood	Brittle wood, cottony seed
Poplar, Lombardy	Canker disease
Poplar, White	Suckers
Russian-olive	Canker disease
Tree of Heaven	Brittle wood
Osage, Orange	Aggressive litter
Silver, Maple	Brittle wood
Corkscrew, Willow	Disease

Village of Homer Glen

Noxious Plant Material List

Botanical Name	Common Name
Alliaria petiolata	Garlic Mustard
Lonicera japonica	Japanese Honeysuckle
Lythrum salicaria	Purple Loosestrife
Phalaris arundinacea	Reed Canary Grass
Phragmites australis	Common Reed
Rhamnus cathartica	Common Buckthorn
Rosa multiflora	Multiflora Rose
